Pages 1270–1276: N. A. Breakwell, M. J. Rowan, and R. Anwyl, “(±)-MCPG Blocks Induction of LTP in CA1 of Rat Hippocampus Via Agonist Action at an mGluR Group II Receptor.”

The electrophysiological traces in Figs. 2A and 5A are incorrect because of inadequate labelling of the stored traces in the computer files that were used to prepare the figures. The corrected versions of Figs. 2A and 5A are shown here. The corrections do not significantly affect the quantitative results or alter the conclusions of the article.

Pages 2267–2278: M. Prakriya and C. J. Lingle, “BK Channel Activation by Brief Depolarizations Requires Ca\(^{2+}\) Influx Through L- and Q-Type Ca\(^{2+}\) Channels in Rat Chromaffin Cells.”

The Ba current bars in Fig. 6 were not plotted on the same Y-axis scale as the BK current bars, producing an incorrect histogram. The corrected Fig. 6 appears here.
