Volume 96, July 2006

Pages 420–432: Gibson JR, Bartley AF, and Huber KM. “Role for the Subthreshold Currents $I_{\text{Leak}}$ and $I_H$ in the Homeostatic Control of Excitability in Neocortical Somatostatin-Positive Inhibitory Neurons” (doi:10.1152/jn.01203.2005; http://jn.physiology.org/cgi/content/full/96/1/420). The following sentence in the 2nd paragraph in METHODS (9th sentence under heading Electrophysiology) is in error:

The capacitance was obtained by multiplying the series resistance by the fastest time constant of a double-exponential decay calculated fitted to the first 20 ms of the capacitive transient decay induced by a voltage step.

The sentence should read:

The capacitance was calculated by first obtaining the decay time constant of a current transient induced by a voltage step (the faster time constant of a double-exponential decay fitted to the first 20 ms) and then dividing this by the series resistance.

Volume 96, December 2006

Pages 2889–2904: Orbán G, Kiss T, and Érdi P. “Intrinsic and Synaptic Mechanisms Determining the Timing of Neuron Population Activity During Hippocampal Theta Oscillation” (doi:10.1152/jn.01233.2005; http://jn.physiology.org/cgi/content/full/96/6/2889). In the methods section, under the heading Neuron types, in the first sentence, Warman et al. (1994) is erroneously cited; the correct reference is Varona et al. (2000), which was not included in the reference list. Therefore, the sentence should read: “The multicompartmental pyramidal cell model was an extended version of the 256 compartmental model of Varona et al. (2000).” The full citation information is as follows: Varona P, Ibarz JM, Lopez-Aguado L, Herreras O. Macroscopic and subcellular factors shaping population spikes. J Neurophysiol 83: 2192-2208, 2000.
